

FRANCE JAPAN FOUNDATION

PRESENTATION DOCUMENT

2025

INTRODUCTION

- Mutual understanding between public and private decision-makers, both in France and Japan, remains insufficient. Mutual perceptions are favorable, but often superficial and outdated.
- It is essential to invest in building a relationship of trust between the French and the Japanese, who are called upon to play a leading role in their country's development.
- Young high potential Japanese have fewer opportunities than their Western counterparts to collaborate and showcase their talent to their peers on a global scale. Japan, renowned for its excellence in innovation, and France, emerging as a major European power in technology and artificial intelligence, have the potential to form high-profile alliances to the benefit of each country and at a high level.
- Against this backdrop, a group of like-minded French and Japanese entrepreneurs, diplomats and experts worked together to create the **France Japan Foundation**.
- At the heart of this initiative is the **Young Leaders France-Japan program**, a key initiative for the future of bilateral relations between the two countries.

A new initiative within the Fondation France-Asie and reflecting the work carried out for over 10 years by the France China Foundation and the France India Foundation, the France Japan Foundation is dedicated to developing relations between young French and Japanese leaders, and promoting projects aimed at strengthening ties, projects and friendship between our two countries.

OUR YOUNG LEADERS PROGRAMS

Every year, the Fondation France-Asie and its country chapters organize Young Leaders programs (France-India, France-China, France-Japan, etc.).

The French and Asian Young Leaders selected are outstanding personalities in their fields (business, politics, sport, science, arts, etc.), destined to play an important role in relations between France and Asian countries.

Once selected, they take part in two four-day seminars, spread over two consecutive years - alternately in France and in the Asian country of their program - to exchange views on major themes, and work together on challenges common to both countries.

The Seminars

15 French Young Leaders and 15 Japanese Young Leaders selected each year

- Under 45
- From different sectors (business, politics, sport, science, arts, etc.)

Two four-day seminars

- Year N in France
- Year N+1 in Japan

Seminar program

- YL discussion sessions
- Visits to places of interest (culture, industry, sports, etc.)
- Meetings with government, cultural and business leaders
- Lunches, dinners and team-building activities

THE FONDATION FRANCE-ASIE

The Fondation France-Asie is the first organisation dedicated to relations between France and the countries of Asia.

Through its actions, it encourages dialogue and the development of new partnerships between France and Asia in the service of shared values. The Young Leaders Programmes, at the heart of its mission, are co-organised with the Foundation's country chapters (France-China Foundation, France-India Foundation).

OUR VALUES

DIALOGUE

Fostering dialogue and friendship between French and Asian personalities.

ENGAGEMENT

Promoting respect for fundamental values and rights as well as the protection of the planet.

COOPERATION

Encouraging projects aligned with the values of the Foundation and consistent with France and the EU's Indo-Pacific strategies.

OUTREACH

Disseminating knowledge about Asian countries in France, and about France in Asia.

We are convinced that beyond state-to-state relations, the future of Franco-Asian relations lies in the links forged between civil societies, by entrepreneurs, artists, political figures, scientists or sportsmen and women, who play a role at the highest level in their country's destiny.

OUR PROGRAMS

YOUNG LEADERS

Every year, the Fondation France-Asie and its regional chapters organize Young Leaders programs (France India, France China, France Japan...).

The French and Asian Young Leaders chosen are outstanding individuals in their respective fields, with the potential to significantly influence relations between France and Asian nations.

Once selected, they take part in two four-day seminars, organized over two consecutive years. These seminars take place alternately in France and in the Asian country associated with their program. During these events, participants engage in discussions on important topics and collaborate on challenges shared by both nations.

NOUVEAUX REGARDS SUR L'ASIE

The monthly publication **“Nouveaux Regards sur l'Asie”** explores the multidisciplinary dynamics of an Asia that has become a major focus of economic, political, geostrategic, cultural and sociological interest.

Through various analyses by recognized experts on these subjects, it provides readers with a nuanced understanding of the issues at stake.

“Nouveaux Regards sur l'Asie” is aimed at those interested in Asian affairs from all angles, as well as political, economic and cultural decision-makers in their reflections on Asia..

FRANCE-ASIA CONVERSATIONS

Throughout the year, the Fondation France-Asie organizes meetings with **emblematic personalities from the worlds of business, politics and civil society, both French and Asian**, to discuss the issues at stake in the relationship between France/Europe and the various countries of Asia, such as climate, technology, health, and so on.
